The processing of personal information by the Department of Forestry, Fisheries and the Environment is done lawfully and not excessive to the purpose of processing in compliance with the POPI Act, any codes of conduct issued by the Information Regulator in terms of the POPI Act and / or relevant legislation providing appropriate security safeguards for the processing of personal information of others.

**IMPORTANT INFORMATION BEFORE COMPLETING THIS APPLICATION FORM:**

**1. General:**

- 1.1. The appointed environmental assessment practitioner (EAP) **must be registered with Environmental Assessment Practitioners Association of South Africa (EAPASA)** in terms of Regulation 14 of Section 24H Registration Authority Regulations, 2016, as amended. Proof of such valid registration must be appended to this Application form. ([APPENDIX 6B](#)). This will be confirmed by the Competent Authority (CA) on the EAPASA website.
- 1.2. The EAP candidate may only **assist** the registered EAP and work under the supervision of a registered EAP (Regulation 14(6) in the S24H Registration Authority Regulations, 2016, as amended). The registered EAP takes full responsibility for the work conducted.
- 1.3. This form must always be used for applications that must be subjected to Basic Assessment or Scoping & Environmental Impact Assessment Reporting where the Department of Forestry, Fisheries and the Environment (DFFE) is the Competent Authority (CA).
- 1.4. The required information must be typed within the spaces provided in the form. The sizes of the spaces provided are not necessarily indicative of the amount of information to be provided. Spaces are provided in tabular format and will extend automatically when each space is filled with typing. A legible font type and size must be used when completing the form. The font size should not be smaller than 10pt (e.g. Arial 10).
- 1.5. Unless protected by law, all information contained in and attached to this application, will become public information on receipt by the Competent Authority. Upon request during any stage of the application process, the Applicant / EAP must provide any registered interested and affected party with the information contained in and attached to this application.
- 1.6. This application form is current as of August 2023. It is the responsibility of the Applicant/Environmental Assessment Practitioner (EAP) to ascertain whether subsequent versions of the form have been published or produced by the Competent Authority. The latest available Departmental templates are accessible at <https://www.dffe.gov.za/documents/forms/legal>
- 1.7. The onus is on the Applicant/EAP to confirm whether DFFE is the Competent Authority to which this application must be submitted (Section 24C of NEMA) and to determine all applicable listed activities that would require Environmental Authorisation prior to the commencement of the construction activities. Should any revision of your development comprise any other activities that constitute a listed activity/ies as defined in Listing Notice 1, 2, or 3 of the EIA Regulations, 2014 as amended, it must also form part of the Application for Environmental Authorisation.
- 1.8. An application for Environmental Authorisation lapses if the applicant fails to meet any of the timeframes prescribed in terms of the EIA Regulations, 2014, as amended.
- 1.9. An application for environmental authorisation **must** be accompanied by a report generated by the web based environmental screening tool (in [APPENDIX 14](#)). This has been stipulated as a requirement for the submission of applications for environmental assessment in the Environmental Impact Assessment Regulations. The Screening Tool allows for the generation of a Screening Report referred to in Regulation 16(1)(b)(v) of the Environmental Impact Assessment Regulations 2014, as amended, whereby a Screening Report is required to accompany any application for Environmental Authorisation.
- 1.10. If applicable, written confirmation that the CA has granted permission for the combination of application(s) for an environmental authorization in terms of the provisions of sub-regulation 11(1) of the EIA Regulations, 2014, as amended, must be attached to this application form (under [APPENDIX 15](#)).

**2. Administrative Requirements:**

- 2.1. An application fee is applicable (refer to 2. FEES). Proof of payment **must** accompany this application and be paid **prior** to the submission of this Application form ([APPENDIX 2](#)). The application will not be processed without proof of payment unless one of the exclusions provided for in the Fee Regulations is applicable **AND** such information in the exclusion section of this application form has been confirmed by this Department.
- 2.2. A cover letter on your company letterhead indicating the nature of this application **must** be appended to this form for e.g. new application for Environmental Authorisation, revised updated application for Environmental Authorisation etc.
- 2.3. An electronic copy of the signed application form must be submitted of both the Applicant and EAP and the signature should not be older than 4 months. The relevant form(s) can be found on our website <https://www.dffe.gov.za/documents/forms/legal>

### 7. SITE DESCRIPTION

Provide a detailed description of the site involved in the application.

Province/s	Western Cape
District Municipality/ies	West Coast
Local Municipality/ies	Bergrivier
Ward number/s	6
Nearest town/s	Velddrif
Farm name/s and number/s	- Kruispad 120 - Doornfontein A 118
Portion number/s	0

#### Surveyor General 21 digit code:

(If there are more than 4, please attach a list with the rest of the codes as [APPENDIX 9](#). Where the 21-digit SGID and farm name are not available, the coordinates of the boundary of the property or properties must be provided in [APPENDIX 9](#).)

N.B. This template/table must be used to provide additional coordinates for relevant infrastructure which must be included in [APPENDIX 9](#).

#### Locality map and Project Plan:

Locality map:	<p>A locality map must be attached to the application form, as <a href="#">APPENDIX 10</a>. The scale of the locality map must be at least 1:50 000. For linear activities of more than 25 kilometres, a smaller scale e.g. 1:250 000 can be used. The scale must be indicated on the map. The map must be legible and of high resolution. The map must include the following:</p> <ul style="list-style-type: none"> <li>• an accurate indication of the project site position as well as the positions of the alternative sites, if any;</li> <li>• road names or numbers of all the major roads as well as the roads that provide access to the site(s)</li> <li>• a north arrow;</li> <li>• scale indicator;</li> <li>• a legend (which explains all symbols used on the map);</li> </ul>

The co-ordinates should be in degrees, minutes and seconds. The seconds should be to at least two decimal places. The projection that must be used in all cases is the WGS-84 spheroid in a national or local projection).</li> </ul>
Project Plan (e.g. Gantt chart)	<p>A project schedule must be submitted as <a href="#">APPENDIX 11</a>, and must include relevant milestones for:</p> <ul style="list-style-type: none"> <li>• public participation (dates for advertisements, workshops and other meetings, obtaining comment from organs of state including state departments);</li> <li>• the commencement of parallel application processes required in terms of other statutes and where relevant, the alignment of these application processes with the EIA process;</li> <li>• the submission of the key documents (e.g. Basic Assessment Report, Scoping Reports, EIA Reports and Environmental Management Programmes).</li> </ul> <p>Note: All the above dates must take into account the statutory timeframes for authority responses that are stipulated in the 2014 NEMA EIA Regulations, as amended. Possible appeals may impact on project timeframes/milestones. Regulation 45 states that <b>“An application in terms of these Regulations lapses, and a competent authority will deem the application as having lapsed, if the applicant fails to meet any of the time-frames prescribed in terms of these Regulations, unless extension has been granted in terms of regulation 3(7).”</b> It is recommended that the Competent Authority be approached for guidance on the process to be followed, prior to submitting an application.</p>

### 8. ACTIVITIES APPLIED FOR

For an application for environmental authorisation that involves more than one listed activity that, together, make up one development proposal, all the listed activities pertaining to this application must be provided below.

Activity No(s):	Provide the relevant Basic Assessment Activity(ies) as set out in Listing Notice 1 of the EIA Regulations, 2014 as amended	Describe the portion of the proposed project to which the applicable listed activity relates. Ensure to include thresholds/area/footprint applicable.
11(i)	The development of facilities or infrastructure for the transmission and distribution of electricity— (i) outside urban areas or industrial complexes with a capacity of more than 33 but less than 275 kilovolts;	Electricity will be transmitted from the PV arrays via 33kV underground powerlines, to the two On-Site / Facility Substations. At the On-Site / Facility Substations the 33kV electricity will be transformed to 132kV. The two on site substations will have a capacity of up to 300MVA each.
14	The development and related operation of facilities or infrastructure, for the storage, or for the storage and handling, of a dangerous good, where such storage occurs in containers with a combined capacity of 80 cubic metres or more but not exceeding 500 cubic metres.	The BESS proposed (Particularly the Vanadium Redox Flow technology) will include the storage of dangerous goods in excess of the threshold of this activity. The final volumes associated with the storage, and storage and handling of dangerous goods will be dependant on the mix of battery technologies deployed.
28(ii)	Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 01 April 1998 and where such development: (ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare;	The proposed PV and BESS Development constitutes Commercial / Industrial use and will occur on a property currently used for agricultural purposes.

**DFFE APPLICATION FORM FOR ENVIRONMENTAL AUTHORISATION – AUGUST 2023**

<b>Activity No(s):</b>	<b>Provide the relevant Scoping and EIA Activity(ies) as set out in Listing Notice 2 of the EIA Regulations, 2014 as amended</b>	<b>Describe the portion of the proposed project to which the applicable listed activity relates. Ensure to include thresholds/area/footprint applicable.</b>
1	The development of facilities or infrastructure for the generation of electricity from a renewable resource where the electricity output is 20 megawatts or more.	The proposed Sunveld Energy Project will have an Electricity Footprint of up to 600 megawatts.
4	The development and related operation of facilities or infrastructure, for the storage, or storage and handling of a dangerous good, where such storage occurs in containers with a combined capacity of more than 500 cubic metres.	The BESS proposed (Particularly the Vanadium Redox Flow technology) will include the storage of dangerous goods in excess of the threshold of this activity. The final volumes associated with the storage, and storage and handling of dangerous goods will be dependant on the mix of battery technologies deployed.
15	The clearance of an area of 20 hectares or more of indigenous vegetation.	The proposed Sunveld Energy project will have a total footprint of 723ha and will require the clearance of more than 20ha of indigenous vegetation.
<b>Activity No(s):</b>	<b>Provide the relevant Basic Assessment Activity(ies) as set out in Listing Notice 3 of the EIA Regulations, 2014 as amended</b>	<b>Describe the portion of the proposed project to which the applicable listed activity relates. Ensure to include thresholds/area/footprint applicable.</b>
4(i)(ii)(aa)	The development of a road wider than 4m with a reserve less than 13,5m. (ii). Areas outside urban areas; (aa) Areas containing indigenous vegetation;	The internal roads for Sunveld energy will have a maximum width of 4m and the main access roads will have a maximum width of 5m.
10(i)(ii)	The development and related operation of facilities or infrastructure for the storage, or storage and handling of a dangerous good, where such storage occurs in containers with a combined capacity of 30 but not exceeding 80m <sup>3</sup> ii. All areas outside urban areas;	The BESS proposed (Particularly the Vanadium Redox Flow technology) will include the storage of dangerous goods in excess of the threshold of this activity. The final volumes associated with the storage, and storage and handling of dangerous goods will be dependant on the mix of battery technologies deployed.
12(i)(i)&(ii)	The clearance of an area of 300m <sup>2</sup> or more of indigenous vegetation except where such clearance of indigenous vegetation is required for maintenance purposes undertaken in accordance with a maintenance management plan. i. Within any critically endangered or endangered ecosystem listed in terms of section 52 of the NEM:BA or prior to the publication of such a list, within an area that has been identified as critically endangered in the National Spatial Biodiversity Assessment 2004; ii. Within critical biodiversity areas identified in bioregional plans;	The vegetation on site is mapped as the endangered Saldanha Flats Strandveld. Portions of the site fall within a Critical Biodiversity Area in terms of the Western Cape Biodiversity Sector Plan. More than 300 Square metres of vegetation will be removed in the endangered vegetation type and the critical biodiversity areas.
18(i)(II)(aa)	The widening of a road by more than 4m, or the lengthening of a road by more than 1km. ii. All areas outside urban areas: (aa) Areas containing indigenous vegetation;	The main and internal access roads will require that existing farm tracks be widened by more than 4m in some areas. Existing

Please note that any authorisation that may result from this application will only cover listed or specified activities specifically applied for. Only those activities listed above shall be considered for authorisation. The onus is on the applicant to ensure that all applicable listed activities are included in the application. Environmental Authorisation must be obtained prior to commencement with each applicable listed activity. **If a specific listed or specified activity is not included in an Environmental Authorisation, a new application for Environmental Authorisation will have to be submitted.**

Coordinate points indicating the location of each listed activity (where applicable) must be provided as part of [APPENDIX 9](#). Coordinates must be provided in degrees, minutes and seconds using the Hartebeesthoek94 WGS84 co-ordinate system.

### 9. PUBLIC PARTICIPATION

Provide details of the public participation process proposed for the application as required by Regulation 41(2) of the EIA Regulations, 2014 as amended.

#### Regulated Requirement

(1) If the proponent is not the owner or person in control of the land on which the activity is to be undertaken, the proponent must, before applying for an environmental authorisation in respect of such activity, obtain the written consent of the landowner or person in control of the land to undertake such activity on that land.

(2) Sub regulation (1) does not apply in respect of-

(a) linear activities;

- Proof of landowner consent for Sunveld Energy is appended to this application form.

The person conducting a public participation process must take into account any relevant guidelines applicable to public participation as contemplated in section 24J of the Act and must give notice to all potential interested and affected parties of an application or proposed application which is subjected to public participation by -

(a) fixing a notice board at a place conspicuous to and accessible by the public at the boundary, on the fence or along the corridor of -

(i) the site where the activity to which the application or proposed application relates is or is to be undertaken; and

(ii) any alternative site; A site notice was placed at three positions along the property boundary along the main road.

- Photographic evidence and the location of these notices will be included in the Draft Scoping Report.

(b) giving written notice, in any of the manners provided for in section 47D of the Act, to -

(i) the occupiers of the site and, if the proponent or applicant is not the owner or person in control of the site on which the activity is to be undertaken, the owner or person in control of the site where the activity is or is to be undertaken or to any alternative site where the activity is to be undertaken;

- The landowner has been requested to notify any tenants on the property. There are no tenants that fall within the footprint of the proposed PV.

(ii) owners, persons in control of, and occupiers of land adjacent to the site where the activity is or is to be undertaken or to any alternative site where the activity is to be undertaken;

- Owners of adjacent properties have been notified of this environmental process. Such owners have been requested to inform the occupiers of the land of this environmental process. Copies of these notifications will be included in the Draft Scoping Report.

(iii) the municipal councillor of the ward in which the site or alternative site is situated and any organisation of ratepayers that represent the community in the area;

- The ward councillor (Ward 6) will be notified of this environmental process.

(iv) the municipality which has jurisdiction in the area;

- The Bergvriër municipality (Planning, Environmental and Technical Services) as well as the West Coast District Municipality will be notified of this environmental process.

- (v) any organ of state having jurisdiction in respect of any aspect of the activity; and
- All organs of state that have jurisdiction in respect of this activity will be notified of this environmental process.
- (vi) any other party as required by the competent authority;
- The DFFE has been given an opportunity to comment on this Draft BAR, any other parties identified will be given an opportunity to comment.
- (c) placing an advertisement in -
- (i) one local newspaper; or
- (ii) any official Gazette that is published specifically for the purpose of providing public notice of applications or other submissions made in terms of these Regulations;
- An advert notifying potential I&AP's will be placed in the Weslander local newspaper.
  - There is currently no official Gazette that has been published specifically for the purpose of providing public notice of applications
- (d) placing an advertisement in at least one provincial newspaper or national newspaper, if the activity has or may have an impact that extends beyond the boundaries of the metropolitan or district municipality in which it is or will be undertaken: Provided that this paragraph need not be complied with if an advertisement has been placed in an official Gazette referred to in paragraph (c)(ii);and
- Adverts were not placed in provincial or national newspapers, as the potential impacts will not extend beyond the borders of the municipal area.
- (e) using reasonable alternative methods, as agreed to by the competent authority, in those instances where a person is desirous of but unable to participate in the process due to -
- (i) illiteracy;
- (ii) disability; or
- (iii) any other disadvantage.
- Notifications have included provision for alternative engagement in the event of illiteracy, disability or any other disadvantage. In such instances, Cape EAPrac will engage with such individuals in such a manner as agreed on with the competent authority.
- (3) A notice, notice board or advertisement referred to in sub regulation (2) must -
- (a) give details of the application or proposed application which is subjected to public participation; and
- (b) state -
- (i) whether basic assessment or S&EIR procedures are being applied to the application;
- (ii) the nature and location of the activity to which the application relates;
- (iii) where further information on the application or proposed application can be obtained; and
- (iv) the manner in which and the person to whom representations in respect of the application or proposed application may be made. Please refer to Annexure F3.
- (4) A notice board referred to in sub regulation (2) must -
- (a) be of a size at least 60cm by 42cm; and
- (b) display the required information in lettering and in a format as may be determined by the competent authority.
- Three Site Notices have been Placed on the property boundary along the R399. Details of these are included in the Draft Scoping Report.
- (5) Where public participation is conducted in terms of this regulation for an application or proposed application, sub regulation (2)(a), (b), (c) and (d) need not be complied with again during the additional public participation process contemplated in regulations 19(1)(b) or 23(1)(b) or the public participation process contemplated in regulation 21(2)(d), on condition that -
- (a) such process has been preceded by a public participation process which included compliance with sub regulation (2)(a), (b), (c) and (d); and
- (b) written notice is given to registered interested and affected parties regarding where the -
- (i) revised basic assessment report or, EMPr or closure plan, as contemplated in regulation 19(1)(b);
- (ii) revised environmental impact report or EMPr as contemplated in regulation 23(1)(b); or

(iii) environmental impact report and EMPr as contemplated in regulation 21(2)(d); may be obtained, the manner in which and the person to whom representations on these reports or plans may be made and the date on which such representations are due.

- This will be complied with if revised reports are produced later on in the environmental process.

(7) Where an environmental authorisation is required in terms of these Regulations and an authorisation, permit or licence is required in terms of a specific environmental management Act, the public participation process contemplated in this Chapter may be combined with any public participation processes prescribed in terms of a specific environmental management Act, on condition that all relevant authorities agree to such combination of processes

All reports that are submitted to the competent authority will be subject to a public participation process. These include:

- Draft Scoping Report
- Draft Environmental Impact Report
- Draft EMPr

All specialist reports that form part of this environmental process.
