Reference is made to the above mentioned Draft Basic Assessment Report made available to Breede-Olifants Catchment Management Agency (BOCMA) for comments.

The following are BOCMA comments relating to the Basic Assessment Report, which should be adhered to:

1. The the proposed development two new water reservoirs, pump station and water pressure towers on a Portion of Remainder of Erf 325 occurs adjacent to wetlands, the regulated area of a watercourse, it will trigger water uses in terms of section 21(c) & (i) of the National Water Act, 1998 (Act No. 36 of 1998) and must be authorised. These sections refer to the impeding or diverting the flow of water in a watercourse and altering the bed, banks, course or characteristics of a watercourse respectively. The regulated area of a watercourse is defined as follows:
 - a) *The outer edge of the 1 in 100-year flood line and/or delineated riparian habitat, whichever is the greatest distance, measured from the middle of the watercourse of a river, spring, natural channel, lake or dam;*
 - b) *In the absence of a determined 1 in 100-year flood line or riparian area the area within 100m from the edge of a watercourse where the edge of the watercourse is the first identifiable annual bank fill flood bench (subject to compliance to section 144 of the Act); or*
 - c) *A 500 m radius from the delineated boundary (extent) of any wetland or pan.*
