Dear Mr Holder

COMMENTS ON THE DRAFT SCOPING REPORT FOR KAREEKLOOF SOLAR PV FACILITY AND BESS ON PORTION 1 OF THE FARM BAS BERG 88, PORTION 2 OF THE FARM KOPPY ALLEEN 83 AND PORTIONS 6, 11, 16 & 17 OF THE FARM KAREE KLOOF 85

The Directorate: Biodiversity Conservation reviewed and evaluated the draft report and doesn't have any objections to the Scoping Report and the Plan of Study. However, it has been noted that the project area is situated entirely within the "Platberg-Karoo Conservancy" Important Bird Area (IBA). The comments must be obtained from SA Birdlife. The PV facilities must be placed in such a way that they avoid any highly sensitive biodiversity areas. The layout Plan overlaid with biodiversity sensitivities must be included and submitted during the next phase of the EIA.

The final Scoping Report must comply with the procedures for the assessment and minimum criteria for reporting on identified environmental themes in terms of sections 24(5)(A) and (H) and 44 of the National Environmental Management Act, 1998.

All Public Participation Process documents related to Biodiversity EIA review and any other Biodiversity EIA queries must be submitted to the Directorate: Biodiversity Conservation at Email: BCAdmin@environment.gov.za for attention of **Mr Seoka Lekota**.

Yours faithfully

Mr. Seoka Lekota
Control Biodiversity Officer Grade B: Biodiversity Conservation

PER MAIL / E-MAIL

Dear Mr Holder

COMMENTS ON THE DRAFT SCOPING REPORT FOR THE PROPOSED DEVELOPMENT OF THE UP TO 900MW KAREEKLOOF SOLAR PHOTOVOLTAIC FACILITY, A BATTERY ENERGY STORAGE SYSTEM AND OTHER ASSOCIATED INFRASTRUCTURE NEAR DE AAR, WITHIN THE EMTHANJENI LOCAL MUNICIPALITY, NORTHERN CAPE PROVINCE

The Application for Environmental Authorisation and Draft Scoping Report (SR) dated September 2023 and received by the Department on 09 October 2023, refer.

This letter serves to inform you that the following information must be included in the Final Scoping Report:

(a) Listed Activities

- (i) Please ensure that all relevant listed activities are applied for, are specific, and can be linked to the development activity or infrastructure (including thresholds) as described in the project description. Only activities (and sub-activities) applicable to the development must be applied for and assessed. Furthermore, kindly ensure that the latest listed activities, as amended in 2021, are applied for.
- (ii) The project description must be expanded to include thresholds, footprints, and capacities of the associated infrastructure, particularly those that trigger a listed activity.
- (iii) It is imperative that the relevant authorities are continuously involved throughout the environmental impact assessment process, as the development property falls within geographically designated areas in terms of Listing Notice 3 Activities. Written comments must be obtained from the relevant authorities (or proof of consultation if no comments were received) and submitted to this Department. In addition, a graphical representation of the proposed development within the respective geographical areas must be provided.
- (iv) If the activities applied for in the application form differ from those mentioned in the final SR, an amended application form must be submitted. Please note that the Department's application form template has been amended and can be downloaded from the following link <https://www.environment.gov.za/documents/forms>.

(b) Layout & Sensitivity Maps

- (i) Please provide a layout map which indicates the following: *JS*

- Positions of the proposed facility, the BESS, as well as all other associated infrastructure;
 - Permanent and temporary laydown area footprints;
 - All supporting onsite infrastructure e.g., roads (existing and proposed); and
 - All existing infrastructure on the site.
- (ii) The above map must be overlain with a sensitivity map which indicates the following:
- The location of sensitive environmental features on-site e.g., CBAs, NPEAS focus areas, heritage sites, wetlands, drainage lines, etc. that will be affected;
 - Buffer areas; and,
 - All "no-go" areas.
- (iii) A cumulative map showing the proposed development in relation to similar neighbouring renewable energy developments and existing grid infrastructure must also be provided.
- (iv) Please note that Google Maps will not be accepted.

(c) Public Participation Process

- (i) Please ensure that all issues raised, and comments received during the circulation of the SR from registered I&APs and organs of state which have jurisdiction in respect of the proposed activity are adequately addressed in the Final SR.
- (ii) Proof of correspondence with the various stakeholders must be included in the Final SR. Should you be unable to obtain comments, proof must be submitted to the Department of the attempts made to obtain comments.
- (iii) The final Scoping Report must provide evidence that all identified and relevant competent authorities have been given an opportunity to comment on the proposed development.
- (iv) The Public Participation Process must be conducted in terms of the approved public participation plan and Regulations 39, 40 41, 42, 43 & 44 of the EIA Regulations 2014, as amended.
- (v) Proof of the newspaper advertisement must be included in the final SR.
- (vi) A comments and response trail report (C&R) must be submitted with the final SR. The C&R report must incorporate all comments received (pre- (if any) and post-submission of draft SR) for this development. The C&R report must be a separate document from the main report and the format must be in the table format which reflects the details of the I&APs and date of comments received, actual comments received, and response provided. Please ensure that comments made by I&APs are comprehensively captured (copy verbatim if required) and responded to clearly and fully. Please note that a response such as "Noted" is not regarded as an adequate response to I&AP's comments.

(d) Specialist Assessments

- (i) Please note that the protocols require certain specialists to be SACNASP registered. As such, the Specialist Declaration of Interest forms must also indicate the scientific organisation registration/member number and status of registration/membership for each specialist.
- (ii) It is noted that Site Sensitivity Verification (SSV) reports were included for only the themes that were rated as High – Very High by the screening tool report. Please note that site sensitivity verification must be undertaken by the specialist or EAP for all the themes. As such, you are requested to ensure that the final SR includes detailed SSV (these can also be consolidated into one report) for all the Medium to Low-rated themes as well. The SSV must categorically state whether or not the EAP or specialist confirms or disputes the finding of the screening tool and on what basis. The findings of the site sensitivity verification reports will assist the department in the review of the final SR and also will aid the department when deciding on whether or not the final SR can be accepted.
- (iii) In addition, you are required to include, as part of the final SR, a table summarising the specialist studies required by the Screening Tool and the sensitivity rating of the Screening Tool (very high, high, medium, low), a column indicating the sensitivity of the site after the EAP/Specialist conducted the Site Sensitivity Verification Assessment (a dispute or confirmation of the finding by the Screening Tool), and a column indicating whether these studies will be conducted or if a

compliance statement or motivation will be submitted during the EIAr phase, as per the requirements of the protocols.

(e) Cumulative Assessment

- (i) Should there be any other similar developments proposed within a 30km radius of the proposed development site, the cumulative impact assessment for all identified and assessed impacts must be refined to indicate the following:
- Identified cumulative impacts must be clearly defined, and where possible the size of the identified impact must be quantified and indicated, i.e., hectares of cumulatively transformed land.
 - Detailed process flow and proof must be provided, to indicate how the specialist's recommendations, mitigation measures, and conclusions from the various similar developments in the area were taken into consideration in the assessment of cumulative impacts and when the conclusion and mitigation measures were drafted for this project.
 - The cumulative impacts significance rating must also inform the need and desirability of the proposed development.
 - A cumulative impact environmental statement on whether the proposed development must proceed.

General

You are further reminded to comply with Regulation 21(1) of the NEMA EIA Regulations 2014, as amended, which states that:

"If S&EIR must be applied to an application, the applicant must, within 44 days of receipt of the application by the competent authority, submit to the competent authority a scoping report which has been subjected to a public participation process of at least 30 days and which reflects the incorporation of comments received, including any comments of the competent authority".

You are further reminded that the final SR to be submitted to this Department must comply with all the requirements in terms of the scope of assessment and content of Scoping reports in accordance with Appendix 2 and Regulation 21(1) of the EIA Regulations 2014, as amended.

Further note that in terms of Regulation 45 of the EIA Regulations 2014, as amended, this application will lapse if the applicant fails to meet any of the timeframes prescribed in terms of these Regulations unless an extension has been granted in terms of Regulation 3(7).

You are hereby reminded of Section 24F of the National Environmental Management Act, Act No. 107 of 1998, as amended, that no activity may commence prior to an Environmental Authorisation being granted by the Department.

Yours sincerely

Mr. Sabelo Malaza

Chief Director: Integrated Environmental Authorisations

Department of Forestry, Fisheries and the Environment

Dear DFFE Biodiversity Conservation Directorate

RE: NOTIFICATION OF AVAILABILITY OF DRAFT REPORT FOR THE PROPOSED KAREEKLOOF SOLAR PV AND BATTERY ENERGY STORAGE (BESS) FACILITY ON PORTION 1 OF THE FARM BAS BERG 88, PORTION 2 OF THE FARM KOPPY ALLEEN 83 AND PORTIONS 6, 11, 16 & 17 OF THE FARM KAREE KLOOF 85, NEAR DE AAR IN THE NORTHERN CAPE PROVINCE.

DFFE Reference No. : 2023-05-0021 (Pre Application Reference Number)

DFFE Case Officer : Ms Mathlodi Mogorosi

Kindly find the attached notification regarding the availability of the Draft Scoping Report for the proposed Kareekloof Solar and BESS Development on the abovementioned properties near De Aar in the Northern Cape Province. The Draft Scoping Report is available for review and comment for a 30 day comment period from 12 October 2023 – 10 November 2023.

Digital copies of the Draft Scoping Report and all associated and supplementary information is available at the following locations:

- On the Cape EAPrac website at: www.cape-eaprac.co.za.
- Dedicated Download link on Dropbox at: <https://www.dropbox.com/scl/fo/2ttavus6cuvo7b5nkpt3g/h?rlkey=ear88b9ptr8j03982zgwso48c&dl=0>
- Dedicated Download Link on We Transfer at: <https://we.tl/t-L6tZKj2lR9>

Should you not be able to access the digital platforms above, please contact Cape EAPrac on the contact details below and we will arrange an alternative method of accessing either hard or digital copies of the Report.

On completion of this 30-day comment period, comments received will be considered and feedback provided, after which the comments and responses will be included in the Final Scoping Report that will be submitted to the National Department of Forestry, Fisheries and the Environment for consideration.

If you require any further assistance, please do not hesitate to contact this office directly.

Hi Dale,

Thank you for registering me and confirming your progress.

I am able to access it via your website, where I see the comment period ended 30 October, so no need if everything is on there.

Kind regards,

Petrus Scheepers | ABO Wind renewable energies (Pty) Ltd

Good Morning Petrus

Thank you for the Email.

I confirm that I have registered you as an interested and affected party for the proposed Kareekloof PV and BESS Project.

The draft scoping report is currently out for review and comment. Do you have a copy of this, or can I send you a WeTransfer link?

Kind regards/Vriendelike groete

Good Morning Ludwig

Thank you for the confirmation of where your properties are situated in relation to the proposed Kareekloof Solar PV.

We have appointed a Social Specialist to consider the Socio Economic Impacts of the development on (amongst others) the surrounding landowners. I will notify him that you have raised a concern regarding negative socio-economic impacts on the area. As part of his assessment, he will then engage further with you to get a better understanding of the concerns.

Kind regards/Vriendelike groete

Hi Dale,

Another online comment (please see attached).

I'll also register Mr Stephan Menne as a direct neighbour.

Kind Regards/Vriendelike groete

Dear Mr Menne

Thank you for your registration and initial comment on the proposed Kareekloof PV Facility.

I can confirm that your comment has been recorded and that I have registered you as an interested and affected party and direct neighbour of this proposed development.

Could you kindly indicate where your farm is situated, so that I can pass your comment on to the Socio Economic specialist to consider.

Kind regards/Vriendelike groete

Dear DFFE Biodiversity Conservation Directorate

RE: NOTIFICATION OF AVAILABILITY OF DRAFT REPORT FOR THE PROPOSED KAREEKLOOF SOLAR PV AND BATTERY ENERGY STORAGE (BESS) FACILITY ON PORTION 1 OF THE FARM BAS BERG 88, PORTION 2 OF THE FARM KOPPY ALLEEN 83 AND PORTIONS 6, 11, 16 & 17 OF THE FARM KAREE KLOOF 85, NEAR DE AAR IN THE NORTHERN CAPE PROVINCE.

DFFE Reference No. : 2023-05-0021 (Pre Application Reference Number)
DFFE Case Officer : Ms Mathlodi Mogorosi

Kindly find the attached notification regarding the availability of the Draft Scoping Report for the proposed Kareekloof Solar and BESS Development on the abovementioned properties near De Aar in the Northern Cape Province. The Draft Scoping Report is available for review and comment for a 30 day comment period from 12 October 2023 – 10 November 2023.

Digital copies of the Draft Scoping Report and all associated and supplementary information is available at the following locations:

- On the Cape EAPrac website at: www.cape-eaprac.co.za.
- Dedicated Download link on Dropbox at:
<https://www.dropbox.com/scl/fo/2ttavus6cuvo7b5nkpt3g/h?rlkey=ear88b9ptr8j03982zgwso48c&dl=0>
- Dedicated Download Link on We Transfer at: <https://we.tl/t-L6tZKj2lR9>

Should you not be able to access the digital platforms above, please contact Cape EAPrac on the contact details below and we will arrange an alternative method of accessing either hard or digital copies of the Report.

On completion of this 30-day comment period, comments received will be considered and feedback provided, after which the comments and responses will be included in the Final Scoping Report that will be submitted to the National Department of Forestry, Fisheries and the Environment for consideration.

If you require any further assistance, please do not hesitate to contact this office directly.

Hi Janine

I can confirm that I have registered you as an I&AP for the Kareekloof Solar PV Facility and BESS.

The Draft Scoping Report and all appendices are on our website at www.cape-eaprac.co.za

No Town Planner has been appointed for the Project as yet. The applicant is Kareekloof Energy (Pty) Ltd.

Please let me know if you have any further queries.

Kind regards/Vriendelike groete

Dale Holder

Subject: Kareekloof Solar PV Facility and Battery Energy Storage System

Good morning Dale,

I hope you are well.

I came across a Environmental Assessment notice for "**Kareekloof Solar PV Facility and Battery Energy Storage System**"

I do not have any objections but would like to please be registered as an interested party. Please use the email address projects@l2b.co.za for registration.

I follow building and construction related projects from conceptual / feasibility up until completion.

Please can you email me a copy of the background information document or motivating memorandum or any other documents or reports for this project.

Please can you also provide me with the below.

- Client Company Name: Kareekloof Energy (Pty) Ltd
- EIA Company Name: Cape EAPrac
- Town Planning Company Name: ?

- Developer Company Name: ?

Thank you.

--

Kind Regards
