Overview

I have been employed as a senior Environmental Assessment Practitioner from 2006 to present working in various provinces in South Africa, as well as in the Republic of Congo. I have been involved in a number of projects including the Sedgefield Desalination Plant, Algoa Bay Marine Aquaculture Facility, Karatara River Weir (Knysna), Lunsklip Windfarm (Still Bay), Humansrus Solar PV facilities (Prieska), Uniondale Wastewater Treatment Works, George Airport radar tower, hotel and filling station, multiple residential and road projects, Environmental Management Programmes and Ecological Control Officer duties and facilitated several biogas facilities to completion. I wrote and compiled the Environmental Impact Assessment documents for an anti-poaching base in the Odzala-Koukoua National Park in the Republic of Congo (Brazzaville) as well as the Motivation Report and Draft Norms & Standards for the Treatment of Organic Waste in South Africa.

I have worked very closely with the South African National Parks (SANParks) Environmental Planner for the Garden Route as well as with CapeNature, with whom I was previously employed. Please see details below regarding work experience.

I obtained my BTech degree in Nature Conservation with the Nelson Mandela Metropolitan University. Please see details below regarding education.
